

# NORTH COUNTRY STEEL

Proudly 100% Australian-owned  
and operated!

## SUPERIOR LOCKER SYSTEMS

### Food Industry Locker Systems

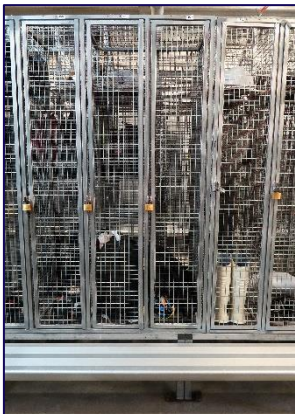

North Country Steel have designed an improved ventilated Wire Mesh Locker system perfect for keeping employees belonging secure and dry specific to the food processing industry.

During our time working alongside food processing companies we have become aware of the variety of locker applications required in facilities we've served. We have designed lockers combining the needs for durability, safe, washable, secure & transparent for manager inspections to form our Wire Mesh Locker System. These Lockers allow the fast drainage of moisture, but also allows airflow through the storage areas, helping to prevent condensation, odours and mould. Finish option of galvanised and full stainless steel depending on site requirements.

NCS Locker system lockers are great for storing uniforms, PPE, work equipment, personal effects and other valuables. Doors are equipped with a pad lockable tabs or optional lever handle with built-in locks are available upon request.

Our NCS Lockers are easy to clean and maintain and are built durable for years of long-lasting use.

Fit your staff out with the best food industry lockers made in Australia! Call Bruce on 0404 574 664 or email [brucefirth@northcountrysteel.com.au](mailto:brucefirth@northcountrysteel.com.au)
